

Angel of Peace

I am the Angel of Peace. I am the messenger of the Sacred attribute, the symbol, the living consciousness of the Peace of God in all Creation. Today I come to speak in his name. The angels of Peace are the messengers of Peace in all Creation. We are the energy that comes to place this Sacred Flame in your Heart when you call It.

You ask questions such as: “**Am I am truly in peace?**”

Peace is a state of being. If you say: “**I am in Peace**”, the totality of your Being calls the attribute of Peace. Immediately, this attribute merges with all the dimensions of your being, all your visible and invisible bodies. Since you are the master of your inner and outer creations you manifest: “**I am in Peace! I Am the Peace!**” Listen and feel!

If you say “**I want to be in Peace**”, this peace is less comprehensive because it is an intention that is in your mind.

Say after me: “**I Am the Peace of God!**”

Group – “**I Am the Peace of God!**” (Silence)

Angel of Peace – “**I Am Peace!**”

Group – “**I Am Peace!**”(Silence)

Angel of Peace - Feel the difference! If you say: “**I Am the Peace of God**” God is outside of you and it is not the same vibration as if you say “**I Am Peace!**” This takes a little training on your part. You must learn to integrate this vibration. It's like learning a new language. At first you only know a few words. Then your vocabulary grows and you start to make sentences. The language you have learned this week: pronouncing the words and then feeling their vibration is a new way of living for all of you. If you use this ultra powerful method, your inner doors will open at an accelerated pace. By your intention to manifest your divinity, you invoke it. You create it consciously.

You can say: “**I am the Perfection of God!**” Feel it!

“**I Am the Sacred Perfection!**” Feel it!

“**I manifest the Perfection in all my Being!**” Feel it!

Peace is the foundation that allows you to feel more the vibration of what you create. Peace is the foundation that allows you to move forward on the inner path of your discovery.

So, anchor yourself, protect yourself and start your affirmations by claiming the Peace. The Peace prepares you because it is only when you feel the vibration of Peace within you that the mental relaxes and that the voice that you want to hear with all your Love can be heard.

You create the atmosphere. You create the nest of Light, the Cathedral of Light where can resonate these words, this communion, this communication with your Supreme Being: the Christ that lives in you and manifests himself in you.

This requires a little practice and the more you will do it, the easier it will get. At some point, you will really know what Peace is in you. Some of you are already able to achieve this state now. Others need a little more practice. We, the Angels of Peace, can assist you. You can ask us, when you want to start communication with yourself, for help to be in peace. You can ask us to create an aura of Peace around you, to help you, to inspire you, to calm you and we will be ONE with you to create this Peace. The Peace may be called in several ways.

The **most** powerful is “**I Am Peace!**”

You can even start practicing with “**I Am!**” with the intention of feeling your inner Divinity.

“**I Am Peace!**” When you pronounce these words, it is a Sacred Act. You literally call the Peace from the Heart of the Great Central Sun, the Source. You call His Essence of Peace. You materialize in you the Peace of the Source by your sacred intention to manifest this Peace.

So, I recommend with all my love, not to take this exercise lightly. It is Sacred! You understand? It is Sacred and it Creates! You use your Divine Power of Creator when you are in this state and you do it with the intention of creating and feeling this Peace.

This is the message that I, the Angel of Peace, address you today. We are wrapping you in our wings - I am not alone- we are covering you with our wings. Feel the infusion we are giving you. We merge our energies with yours and together we create a Sun of Peace. Feel it!
