

## **Denise Laberge (0795)**

### *Notes for the preparation of the energies*

When the disciples lived the Passover and the crucifixion with Jesus and after that his resurrection; they experienced a certain energy, a certain emotion.

You are confronted with your beliefs of 3D (beliefs in death and ending ...) and at the same time with a new vision of Life: you see that he has risen, he is standing and alive. And, at the same time ..., wait a minute: what is this about?

You are confronted with your old way of thinking and the new one that is imposed on you. It is imposed on you because you cannot deny it: you have it in front of your eyes, you can even touch it.

Sananda said to me earlier: "Put yourself in the energy of receiving the new, the incredible." Put yourself in the energy that we will receive: we will perceive a new way of seeing, of living, of thinking, of looking at oneself and feeling life. Put yourself in that energy, before I give you the message.

Breathe that energy. Imagine yourself in front of the incredible, the Unlimited, the unfathomable mystery of the mysteries of life. We will put ourselves in this energy and we will receive the message. Ok?

## **The Angel of Preparation (0797)**

I am here among you. I am Light, Peace, Harmony, I am the Angel of your Preparation. At this moment. I spread my wings around you to form a great circle of harmonization and perfection. Harmonize with the heart that you are together, that you all form together with your individual hearts.

Imagine the most beautiful jewel you can conceive: the sparkling jewel of Immortality, Eternity. And this jewel is your life! It's the most wonderful, the most extraordinary, the most beautiful, the most perfect energy you can imagine. Imagine this jewel, this energy, this consciousness in the center of your circle and imagine that each one of you is linked to this perfection, to this energy.

Feel the energy that connects to your heart, to your subtle bodies. Feel that this energy envelops you and touches all the energy/consciousnesses that are part of what you believe to be in this dimension, in your dense body and your subtle bodies. You form a world, a universe. Well, this universe is alive!

Today, we invite the energies of Resurrection, Rebirth, openness to the Great Life. We invite these energies to touch your inner universe; the universe of your dimension, the one you use, in which you live right now. We are infusing this universe with the energy of the new Life! The energy of the magic, of the Almighty, the Intelligence of Intelligences, the unfathomable energy of the Great Life that is in you, around you; this Great Life in which you bathe.

Feel that this energy settles in you, that it touches this universe that you carry, in which you live, evolve, grow; that it touches this universe and transforms it, repolarizes it towards the energy of the Great Life, the energy of your rebirth, *which you are* from all eternity. Feel the work that is happening through you, feel that energy growing inside you, coloring your inner world differently. A new color takes root, a new vibration, a new frequency, a new life.

We now deposit the jewel of your new life, your True Life; the one you carry from all eternity, the one you came to manifest in this dimension. You now become the bearer of your life, the bearer of the unlimited, of all the possibilities, of abundance; you become the bearer of the Life of Christ! Feel that energy inside you and, as you hear Sananda's words, stay aware that you carry this energy and that it is this energy in you that receives the message. It is nourished by it, is nurtured by it and this energy radiates, recognizing itself in its participation in the Great Plan in this dimension.

Through his intermediary in you -his intermediary that you are-, you are the Great Life that finally recognizes itself, in action in this dimension, in this universe that you use: these emotions, these thoughts, these beliefs, these actions. Everything that you are, everything that you emit as frequency every day, every night.

Thank you!
