

Saint Germain
The New World must start with yourself!
Translated by Janine Leclerc

I am Saint Germain, your brother of the Light. I welcome you in the energies of the Violet Flame. I am surrounding you with the energies of Transmutation of the Violet Flame to assist each one to accept unconditionally who you are right now.

The greatest leap requested to this humanity is to accept, with determined and unconditional faith, that you embody the divinity in this dimension, that you belong to the world of light, that you are an Immortal and Eternal Being who came to spread the good news on this Earth. And what is this good news? It is a simple one: this planet can live in peace, love, joy and harmony.

However, you must first accept this reality. You must accept to believe that humanity can live in love, peace and joy. Why is this so important? Because if you do not believe that it is possible, it will not manifest in your world. It will not materialize in your life because you are the Ultimate Creator of your life. The energies, flowing right now on Earth, materialize very fast what you carry inside you: your beliefs. Everything you believe will materialize faster and faster in your life ***because that is the law.***

When a planet prepares to change dimension there is a transition period where, everything that must be created according to the belief of the creators who live on it, is created before the new energy can anchor itself, materialize and manifest. So, what will happen in the next few years will be the materialization of the human collective. What this humanity believes will materialize and what you believe will also materialize.

Observe the current state on planet Earth. There are civilizations where people live on the edge of technology with computers, rockets, very powerful electronic devices. On the same Earth, there are people who still live in the woods without electricity, using only materials from Mother Earth, living as they did 2,000 years or 10,000 years ago. This is all lived at the same time on Planet Earth.

I give this image today to tell you: this whole planet will change dimension. It will accelerate its vibrational frequency and soon, within the next several years, it will manifest in the matter what corresponds to this new vibratory rate that she is increasing within herself. Only the emotional, physical and psychological matter that will be in harmony with this new vibratory rate will be able to tolerate this level of vibration. All that is incompatible will not remain in this dimension.

There will be a natural triage which is a natural evolution cycle of each planet. Many life forms will disappear from this planet. They are the ones that do not want to vibrate at a different frequency. This is what they came to experience in this dimension in order to continue their journey elsewhere. Others life forms will be able to anchor themselves, to materialize on this New Earth that corresponds to their vibratory rate. It is all about energy. You already know this. Yes! Everything depends on harmonic frequency. You cannot stay in a relationship with someone who is totally and diametrically opposite to you in terms of energy. This planet will act the same

way towards every kingdom, not only human but also animal.

I invite you today to open yourselves to the Consciousness of Unity, Divinity, Immortality. This is the first step. I could talk to you, for several hours, about what is coming on this planet but it is not really important. What's important is you, it is what you are presently doing with your life. What you do now is preparing you for what is coming and the question is: "*Will you be in harmony with the energy that the Earth is preparing?*" If you are in harmony with what the Earth is preparing, your life will be possible, easy, beautiful and magical. If you are not able to harmonize with the new energy, you will not be able to withstand this planet's vibratory rate. Your physical body will leave because it will be impossible for it to tolerate the New Earth. It is mathematical!

Why do I speak this way today? It's very simple! You all have, within you, the tools, the necessary frequency of love to harmonize yourself with the New Earth, to allow your Heart to take its place in your lives. However you must first accept it. You must accept that it is possible for you to follow the ascending movement of this planet. It is possible for you to align with the energies of Pure Love which are poured on this planet. ***This is the first step: acceptance and openness.*** I know I am repeating myself! I have already spoken this way before. I speak for the new people, here present tonight, so that you realize that you all have the same potential. You have, each of you, lived thousands of lives before this and you have prepared yourself for this precise moment to say "***yes***" to the Light. Accept unconditionally the new energies that are coming towards you.

I am talking about a world that you cannot imagine because nothing is like it around you now. The New World must begin with you. You must allow yourself to believe and live your Divinity. You must allow yourself to believe that you are a divinity even when you do all sorts of things that you deem not to be harmonious with life. Accepting the New Earth in your Heart, accepting the new energy currents allow these energies to transform you, to help you transmute yourself at all levels of your Being. Do you understand these words? It is important for each of you to accept the New Energy, to accept the New Earth, the 5th Dimension in order to allow it to grow in you.

Another important thing you also need to do is to carry this Light in you. Acceptance allows the light to penetrate in you, to anchor in you but it is up to you to make the Codes of Light, the Flower of Light, grow in yourself by your love and your attention.

I recommend you a very powerful exercise:

Every day, take a few minutes to internalize. Imagine the Light of the Great Central Sun, that you are, penetrating inside you through your Heart and feeding the Divinity that you are to make it grow, make it flourish because it belongs to you! YOU ARE THE ABSOLUTE CREATOR OF THE ENERGIES YOU CARRY!

By feeding with love what you are inside, allowing your Immortal Ultimate Life to penetrate and transform you so that you can manifest the real Being that you are, then you become even more powerful. You identify yourself, each day more and more, with the Light and you authorize the Light Codes you carry to materialize in yourself, to grow, to flourish and you allow yourself to become aware of the new consciousness that you are. You allow it to grow, to live in you. When

you do this simple exercise of internalizing so that you feel the Almighty Light expanding your own divinity within yourself, a New Consciousness anchors itself in you. It affects your consciousness, your "little me" and you begin to think differently, act differently, see differently.

Each of you hearing this message now, carries specific Light Codes that have been in you for a very long time. Since you left your solar systems, your planets of origin or simply since you left the Heart of the Almighty, the Source of All Life. You have brought them here, in this temple on this earth, to live this very special and extraordinary era of a Planet ascending, in full, from the 3rd dimension to the 5th dimension. What you carry inside is unique to each of you. ***So never compare yourself!*** The Heart vibration you carry is unique to you and it complements the vibration of the One Race One Heart that is being born on this planet.

All the players, all the participants in the New Earth have already been identified. You are part of them. To be part of Earth ascension, you must recognize your role and accept to participate. Carrying these Light Codes is not sufficient. They help anchor the New Consciousness but these seeds must develop in yourself and you are the only one who can make them grow within you. The necessary Light to support the emergence of these Light Codes in you is available to you today. It is up to you to believe, to connect with this Light. It is up to you to make this power, this energy, this consciousness, the New Earth grow in you. Do you understand these words?

You have an important role. The awakening of the Christ, the second coming of the Christ, it is you! It is you who carry the Christ Light Codes in you. It is up to you to choose and to let them grow in order to manifest them in your life. You already radiate them! By making them grow in consciousness, you open new doors that allow you to wake up and realize that you are ONE, that you are part of the Light Ocean of this humanity, that you are not separated from anyone. You walk toward the Unity, the Unity Consciousness. You are living a very special time now because the New is not in front of you, it must come from inside you. It is a challenge, a very daring adventure for all of you who are accustomed to look outside to see the result. The New Earth, the New Consciousness must appear inside your Heart first. You must allow it to grow in you, to feel it grow in you.

In the morning, when you center yourself and you ask the Resurrection Light to penetrate in you, feel its action. Feel it anchoring itself in your Heart and transforming you. Feel that the Resurrection Light resurrects you at all levels of your Being. Ask that the New Consciousness resurrects in you because you are already carrying it within you. Even your life signature bears the New Earth. It bears the signature of love, sharing, respect and harmony. You only have to accept it and live it, to feed it through your beliefs, your attitude. Do you understand these words?

When Sananda came on this Earth 2,000 years ago, he walked among a sleeping unconscious humanity. He came to sow the Light seeds for today's time. The numbness in consciousness was so total that it was impossible to awaken humanity at that moment. In the last 2,000 years, the Light Codes have sprouted in the consciousness of humankind. The seeds have grown and are now complete. They are able to flourish and you carry these seeds. Not all humans have accepted their role of carrying the Light Seeds.

So, do not expect that everyone you know will open to this light, to this understanding you carry. It's impossible! Many of your brothers and sisters of the Earth have never wanted to carry the

Light Codes that would enable them, in this lifetime, to open to a reality that accepts love as a plausible reality that can be lived in this dimension. Since you carry these Light Codes, everything is possible for you! You can awaken. You can transform yourself. You can experience the magic of the New Earth in your life now because you carry them.

I invite you to meditate on these words, to go inside you and welcome yourself with the greatest possible love for all the distance you have already traveled, for the courage you have shown, for the life you have chosen to live on this Earth now.

Make these Light Codes grow in you. Make your dreams grow in you. Feed them! Ask the Almighty Light of your Great I AM Presence to make the true reality of your being blossom within you, to make you feel its presence. Open up to all the possibilities. Open up to a new way of thinking and seeing yourself. Feel this Resurrection Light penetrating you and feeding the consciousness that allows you to believe in yourself, to believe in your Divinity, to believe in your Original Essence.

I ask you to go inside this Heart now. Present yourself before the altar where the flame of your Interior Sun is shining, this consciousness that you are, this Consciousness that is eternal. I ask you to welcome it, to embrace it, to love it, to stop feeling separated. You are this Light, this Consciousness. You are the life. The power of life that is in you and keeps life in this physical body is the Life of the Almighty, the same life. You have all the powers in you. Welcome your own power and transform yourself, elevate yourself. Walk as Gods and Goddesses that you are among your brothers and sisters.

I am Saint Germain, your brother forever. The one who taught you on multiple occasions, in multiple lives. The one who talked to you in the time of Jesus.
