

## Ashtar Sheran

### *Bravo!*

Heartfelt Love greeting from our spaceship.

We are now orbiting over this dear planet Earth and know that our hearts are with you in this moment.

I invite you to go down into the Light Cathedral of this Heart that we cherish in you. We know you personally, each of you and please; do not doubt these words.

Why do you think we have gathered here in this place today? Because we are from the same family: the family of Universal Love, the family of those who radiate their truth, their heart wherever they are, where you are at this moment in your families, at your work, on the sidewalk, you radiate what you are right now. And know that this is huge. You are the ground team. You are among those who believe in the invisible, who believe what their physical eyes cannot even see.

So I, Ashtar, say to you: *Bravo! Bravo!* You have remembered who you are! You have remembered that there is something else besides what your physical hands can touch around you. You belong to the race of Light, each one of you.

We heard earlier that you are going to talk about the Flame of Resurrection? Well, I'm here with my brothers and sisters of our spaceship, forming a circle around you, to ignite your hearts, to ignite the Light of who you are because your biggest challenge is to acknowledge the power, the greatness, the Light that you are, in this physical body, using this physical body in this dimension of density.

Know that we are with you right now. We will be with you all afternoon and we will accompany you in the coming weeks, provided you welcome us into your heart, your homes and your work.

Why do I say these words? It is very simple. We are connected by the heart; when you think of us, we are with you because we are one, we consider you as part of our family, we feel you in our heart. When you contact us with your intention, your attention, we immediately answer the call, we are there around you to support you, to amplify the Light of your Heart: isn't this extraordinary?

You are the ones who walk on Earth to emanate, to transform this world by transforming yourself, by welcoming this light that you are, by welcoming the greatness that you are!

I repeat these words to you so that they grow within you, they anchor themselves firmly and participate in your transformation, your resurrection as a Flame of Light in this universe of density on this planet.

So let's celebrate! Celebrate this long-awaited resurrection of your hearts.

Thank you for welcoming me here. I am Ashtar, your star brother. Thank you!
