

St-Germain

By the Grace of the Almighty who unites us in this sacred moment, be blessed! The Life that flows within you is Sacred, children of the Earth. This life that I know so well in this dimension because I am St. Germain, I am the one who walked for many years on the surface of this Earth just as you do now.

Well, this Sacred Life, you live it now! It will not be sacred tomorrow or in ten years or in a hundred years. It is sacred now! And the sooner you recognize it, the sooner It will grow and transform everything you believe in, everything you put your beliefs into right now. It will transform your way of seeing, your way of perceiving. Then, make this Sacred Life your "best friend", let it grow in you. Let your inner eyes look at this Great Life, every day, and admire its power, admire its vitality, admire its frequency: it is your "best friend".

It has been waiting for you for thousands of years, waiting for your gratitude, waiting for your attention, waiting for your love, waiting for you to recognize it in yourself. It is waiting for you to recognize that you're this Great Life now, not in a hundred years from now, not in a thousand years from now! You are the Great Sacred Life now! You are, each of you, the Great Sacred Life in action now by all that you do: all those actions, your vision, all those words, all that you listen to. You are already that Great Sacred Life in action now!

And by these words that I pronounce, by the Life that is charged with these words that I pronounce, we bless as one heart this Life elixir. This Life liquid that transforms everything, that is alive, that is conscious and which, from now on, will act within each of you to revive this faith, this faith in this truth that you are the Great Sacred Life now. And may this Great Sacred Life, from now on, unfold in you, around you! May it guide you, transform you and participate in the expansion of who you are now!

I am St. Germain and this elixir is blessed with the Life that inhabits us, each one of us, the living Life, active in each one of you and around you.

Thank you!
